WE'RE LOOKING FOR TUTORS

Did you know that the B&MSSC offers individualized tutoring? Our tutors are trained and understand that everyone learns differently, providing tutoring free of charge for a variety of courses. We’re currently looking for additional tutors for the 2017-2018 school year who can assist our students with various Mathematics and Mechanical Engineering courses. If you know of any students who might be interested in working as a tutor, please encourage them to apply. All students must have received an A in the course that they are interested in tutoring. For additional information about the courses available or requirements, please contact Darian Johnson Potts at darian.johnson@mst.edu or success@mst.edu.
The semester isn’t over just yet. We’re encouraging our Miners to finish strong!

Have you met our therapy dogs?

If you know a student that needs to de-stress with our therapy dogs, there’s still time! We have therapy dogs in the Student Success Center every Thursday from 11:30 AM to 1 PM. Students can unwind after a stressful week or after a difficult exam with one of our furry four-legged friends.

Our Student Success Coaches are hard at work, addressing common struggles that students face by creating weekly themed boards.

The first two themes were Procrastination and Healthy Habits.

Each week our boards will include helpful tips and tricks, providing encouragement to those students that might be experiencing challenges in those specific areas. We will also share links to helpful articles and TED talks on our Facebook and Twitter feeds.

You can check out our boards each week in the Toomey Atrium!

Our Faculty Spotlight this month is Dr. Kaur! Dr. Kaur is the current chair-elect for the Midwest section of the American Society for Engineering Education and will serve as chair for the 2017-2018 term. Her current research interests are Engineering Education, Investigation of Learning Pedagogies, Optical Fiber Sensors and Smart Structures.

Dr Kaur is available in the B&MSSC on Mondays, Wednesdays, & Fridays from 9:30 AM to 10:30 AM!
