

Burns & McDonnell STUDENT SUCCESS CENTER

February 2017

Welcome back, Miners! Here's what happened at the SSC in February!

We have some new additions to the Success Coach team! Our wonderful crew is working hard to assist students in areas of note-taking, study skills, time management, etc. We are here to help students achieve their absolute best during their time at S&T. For more information or to request a meeting with a coach, visit studentsuccess.mst.edu.

Miner Money Management Counselors & Student Financial Assistance came in this month to help students update their Academic Works profiles. Students were challenged with financial trivia and enjoyed free prizes and food! Check them out in G-1 Parker Hall if you have any questions!

FACULTY SPOTLIGHT

Our Faculty Spotlight this month is Dr. Westenberg! He holds office hours in the SSC on Monday & Friday from 11AM to 12PM. This month, he was featured during the first "Research on Tap" lecture at the Public House Brewing Co. There, he greeted attendees with his giant plush microbes and educated them about the different kinds of bacteria on our planet.

Don't forget to check out our tutoring schedule for this semester at studentsuccess.mst.edu. We provide tutoring for a variety of courses. Don't see a particular course offered? Stop by the SSC and sign up for a study group! They're great for meeting new people and getting the academic support you need!

A few of our coaches had a blast at the Healthy Resolution Fair, encouraging students to set goals and plan ahead for the academic semester.
